

# Never'll find a wolf in sheep's clothing!

**Indian Natural Rubber**  
Branded rubber conforming to international standards of quality.

Branding of Natural Rubber (NR) has been a pioneering step, initiated by the Rubber Board of India, to ensure quality attributes of NR exported from the country. The branding 'Indian Natural Rubber' is a guaranteed system on quality and grading of the product. Every branded consignment comes with a seal of trust that increases the responsibility of the exporter to supply rubber grades at an internationally accepted quality.

#### The INR brand:

- A maiden attempt of branding by any rubber producing nation
- Abides by quality standards in Green Book of Standards and IS standards
- Increases customer confidence
